

Virtual Teaching Programme

Case Studies: Haemoglobinopathies Including Newborn Screening – The Challenges and Discrepancies, Session 1

DATE: 15/10/2020

TIME: 15.00 – 17.00 GMT

This event comprised of two separate sessions. Six of the laboratories participating in the ARISE project were invited to develop a single case study. The presentations set out a challenging patient case to a panel of experts and peers, before it being opened to a thought-provoking panel discussion, which facilitated further insights and recommendations.

Panel members:

Professor Baba Inusa, Guy's & St Thomas' NHS Foundation Trust (UK)

Dr Wale Atoyebi, Oxford University Hospitals NHS Foundation Trust (OUHF, UK)

Professor Jacques Elion, Institut National de la Sante et de la Recherche Medicale (INSERM, France)

Yvonne Daniel, Viapath, Guy's & St Thomas' NHS Foundation Trust (GSTT, UK)

Event managers:

Kelley Price, International Projects Officer, Royal College of Pathologists (UK)

Raleen Fernandes, ARISE Scientific Programme Manager, Guy's & St Thomas' NHS Foundation Trust (UK)
